## Dinosaurs: Dead or Alive?

ARE DINOSAURS really millions of years old? Did they all go extinct?

Answers to these questions and more, will be offered by our March speaker, Phillip O'Donnell. This presentation by a young and energetic cryptozoology researcher will feature historical and modern-day evidence that the supposed extinction of the dinosaurs 65 million years ago is one of history's greatest hoaxes. Cited will be some of the many thousands of people who claim to have seen dinosaur-like creatures, over the last 300 years.

Other topics discussed will include:

- Is there evidence from the fossil record of dinosaurs and man living together?
- Was the legendary “dragon” a living dinosaur?
- What bible references mention dinosaurs?
- Are dinosaurs still living today?
- Are other “prehistoric” animals still living?

Also, Phillip and Timothy O'Donnell have recently produced a one-hour DVD movie: “Dinosaurs: Dead or Alive”, which will be briefly previewed during this presentation.

THIS MONTH'S DSA meeting will be held on Saturday, March 15, 2008, from 9 to 11:30 AM.

*Be sure to join us as we are updated on this fascinating subject!*

## DSA *Overnight Raft Trip*

### July 8, 9, 2008

*This new field trip* will feature an overnight stay in the scenic Deschutes country and cover 35 miles of a totally new (for our group) section of the river! This extended version raft adventure will be fully provisioned by Discovery Outfitters.

**Why?** Besides enjoying good Christian fellowship and the adventure of white water rafting, DSA members Steve Hayley and Keith Swenson will present a creationist perspective on the biology, geology (and night-sky stars) of the Deschutes Canyon.

**Who?** All interested persons are welcome to register. Anyone younger than age 18 must be accompanied by a responsible adult.

**Meet:** We will meet in the parking lot of Central Bible Church at 7:00 AM and drive to Maupin, OR, where the raft trip begins. Return time (to Maupin) will be around 5 PM Wednesday.

**Bring:** Provided by Discovery Outfitters will be all rafting equipment, meals (lunch, dinner, breakfast & lunch) and shuttle to and from raft sites. A list of personal items recommended will be sent to each person registering.

**Cost:** \$145. per person. (Due with this application).

**Registration:** To register, return the completed coupon below with your payment. Acceptance will be on a first come, first serve basis.

**For more info,** contact coordinator Ruth Hazen at 503-658-7734.

## Science, Scripture & Salvation

The DSA-sponsored "Science, Scripture and Salvation" radio broadcast is now heard each Sunday at 12:30 PM. This 15-minute program is found on KPDQ 93.9 FM.

### MARCH 2008 PROGRAMS:

#### March 2: Ask a Creation Scientist

Did we come from apes? Did Noah's Flood really happen? Are fossils millions of years old? These are three major issues in the continuing debate over origins. What do creation scientists have to say about these divisive topics? Find out this week on Science, Scripture, and Salvation!

#### March 9: Design of Fruit Trees

Many of us enjoy sweet fresh fruit or delectable hot fruit desserts. The trees that give us such wonderful food are flowering plants that continually reproduce themselves. How do they do it? Listen in to learn about these fantastic fruit bearing trees which the Creator has given to us!

#### March 16: Marine Deserts

Most people would describe a desert as a vast amount of land with little to no available water. However, deserts are not exclusive to dry land. What other kind of desert are we talking about?

Get your feet wet on the topic of underwater desert regions!

#### March 23: Science of the Crucifixion

As we celebrate Easter and remember the victorious resurrection of our Lord Jesus Christ, it is important to consider just how much He suffered and sacrificed for us on the cross. There's so much more to Christ's ultimate sacrifice of death than we may realize. How high a price did He pay for our sins? You'll have a greater appreciation for the Creator after hearing this broadcast.

#### March 30: Star Light, Star Bright

Evolutionists use the issue of distant star light as a strong point in their argument for origins by chance with no divine intervention. Of course, evolution isn't true; but, if the earth is only a few thousand years old, just how are we able to see distant star light that is millions of light years away? Don't miss this intriguing discussion!
